

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

HB 445 – SB 439

March 5, 2023

SUMMARY OF BILL: Removes the condition that the Department of Transportation (TDOT) must first authorize the installation of surveillance cameras operated by law enforcement agencies on federal interstate highways and state roads as a non-highway use of the highway right-of-way for the purpose of aiding in criminal investigations or searches for missing or endangered persons.

FISCAL IMPACT:

NOT SIGNIFICANT

Assumption:

- Pursuant to Tenn. Code Ann. § 55-8-198(f)(2), TDOT is authorized, but not required, to permit the installation of surveillance cameras operated by law enforcement agencies on federal interstate highways and state roads for the purpose of aiding in criminal investigations or searches for missing or endangered persons. However, such authorization is subject to the approval of the Federal Highway Administration.
- Removing the requirement that TDOT must approve installation of such cameras may result in an increase in the number of cameras installed by local law enforcement agencies. However, any such increase will be contingent upon federal approval and is, therefore, assumed to be not significant.
- Since federal approval is still required prior to installation of any such cameras, it is assumed that this legislation will not lead the state to be out of compliance with federal rules and regulations and will not result in any jeopardy of federal funding.
- Pursuant to Tenn. Code Ann. § 55-8-198(f)(2), such cameras cannot be used to enforce or monitor state or local traffic violations or issue citations for such violations.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
